Summary

Passionate and solutions-driven full-stack web developer with a certificate in full-stack web development from a highly regarded bootcamp. Over 10 years of leadership experience as a VP of Construction Management in the painting contractor industry, applying strong communication, problem-solving, and project management skills. Skilled in mobile-first design and a proven ability to build and maintain web applications. Experience in managing entire commercial projects independently, from blueprint reading to inventory management and labor.

Technical Skills

Softwares/Platforms: Render, Git, GitHub, Fabric.js

Software Languages: JavaScript, HTML5, CSS3, Node.js, Python, SQL, PostgreSQL

Projects

ART Attack

[GitHub Repository](#) | [Deployed Project](#)

A canvas drawing web application where users can compete by drawing images based on suggested subjects and vote on each other's drawings.

- Core Responsibilities: Full-stack development using Fabric.js for the canvas functionality, and a PostgreSQL database for storing user sessions and drawings.
- Tools/Languages: JavaScript, Node.js, PostgreSQL, HTML5, CSS3

Popcorn Picks

[GitHub Repository](#) | [Deployed Project](#)

A movie recommendation app that allows users to search, filter, and save movies based on their preferences.

- Core Responsibilities: Backend development, integrating API calls to display movie data and allow users to save their preferences.
- Tools/Languages: JavaScript, Node.js, APIs, HTML5, CSS3

Experience

Vice President of Construction Management

Painting Contractor Company, Buda, TX | Year – Year

Led and managed painting crews for commercial business projects, handling all aspects of the job independently, including managing inventory, reading blueprints, and coordinating with corporate officials and general contractors. Balanced management responsibilities with labor, ensuring smooth project execution and timely completion.

- Managed large commercial projects from start to finish, improving efficiency and reducing costs.
- Worked closely with corporate officials and other contractors to meet project requirements.
- Handled inventory management, blueprint reading, and crew coordination.
- Performed both managerial and labor duties as required to meet project goals.
